Webpage: <http://www.psoberon.com>

Date of Birth: May 24th, 1988—Cuernavaca, Mexico.

Nationality: Mexican

Languages: Spanish, French, English

Academic positions

- 2018-Present Assistant Professor. Baruch College, City University of New York. New York, USA.
- 2015-2018 Andrei Zelevinsky Postdoctoral Research Instructor. Northeastern University. Boston, USA.
- 2013-2015 Postdoctoral Assistant Professor. University of Michigan. Ann Arbor, USA.
- 2008-2010 Teaching Assistant A (Ayudante de profesor). Universidad Nacional Autónoma de México, Mexico.

Education

- 2006-2010 BA in Mathematics, Universidad Nacional Autónoma de México
Average: 9.96/10, graduated with honors
Thesis title: Perforando convexos (*Piercing convex sets*)
Thesis supervisor: Luis Montejano
- 2010-2013 PhD in Mathematics, University College London
Primary supervisor: Imre Bárány
Secondary supervisor: Keith Ball
Thesis title: Partition Problems in Discrete Geometry
Available at <http://discovery.ucl.ac.uk/1398297/>

Research interests

I am interested in the interaction between combinatorics, algebraic topology and linear algebra. I have focused my research in discrete geometry and topological combinatorics.

Grants / Fellowships

External

- 2021-2024 NSF DMS Grant 2054419. *Topology and Linear Algebra in Discrete Geometry*.
Principal Investigator(s): Pablo Soberón
- 2021-2024 NSF REU site Grant 2051026. *REU Site: New York City Discrete Mathematics REU*.
Principal Investigator(s): Adam Sheffer. Co-PI: Pablo Soberón
- 2018-2021 NSF DMS Grant 1851420. *Combinatorial Properties of Convex Sets and Measures in Euclidean spaces*
Principal Investigator(s): Pablo Soberón.

2019-2022 National Researcher Level 1 - CONACyT (Mexico)
Sistema Nacional de Investigadores, Nivel 1.

Internal

2021-2022 PSC CUNY research award, type B. Period 52
Principal Investigator(s): Pablo Soberón

2020-2021 PSC CUNY research award, type B. Period 51
Principal Investigator(s): Pablo Soberón

2019-2020 PSC CUNY research award, type B. Period 50
Principal Investigator(s): Pablo Soberón

- 2012-2016 Editor of science/ambient section at www.loshijosdelamalinche.com
- 2010 *El principio de las casillas (The Pigeonhole Principle, in Spanish)*. Tzaloa, 2010 (2) pp. 1–6 . Tzaloa is a popularization journal published by the Mexican Mathematical Olympiad. <http://www.ommenlinea.org/wp-content/uploads/2014/01/10-2.pdf>

Selected awards

- 2021 Feliks Gross award. CUNY.
- 2012 Davenport Prize in Pure Mathematics. University College London.
- 2009a Special Gold Medal. I CIIM (*Iberoamerican Interuniversity Mathematical Competition*)
Girardot, Colombia.
- 2009b Gold Medal. XII Iberoamerican Mathematical Olympiad for University.
- 2006a Bronze Medal. Asian Pacific Mathematical Olympiad
- 2006b Gold Medal. XXI Iberoamerican Mathematical Olympiad.
Guayaquil, Ecuador
- 2006c Gold Medal. XLVII International Mathematical Olympiad
Ljubljana, Slovenia.
- 2005a Silver Medal. Asian Pacific Mathematical Olympiad

- 2005b Bronze Medal. XLVI International Mathematical Olympiad
Mérida, Mexico.
- 2005c Silver Medal. XX Iberoamerican Mathematical Olympiad.
Cartagena de Indias, Colombia.
- 2004 Gold Medal. VI Central American and the Caribbean Mathematical Olympiad. Managua, Nicaragua.

Books

- 2013 *Problem-Solving Methods in Combinatorics: an Approach to Olympiad Problems*. Birkhäuser Basel. 174 p. 65 illus., 10 in color. ISBN 978-3-0348-0596-4
- 2010 *Combinatoria para Olimpiadas Internacionales*. Instituto de Matemáticas, UNAM. Series *Cuadernos de olimpiada*. ISBN 978-607-02-1710-4. Note: this is a spanish version of the book above, distributed by the Mexican Mathematical Olympiad

Teaching

- 2021a. MTH 2610 (Calculus I). Baruch College, CUNY. Spring term, one section.
- 2021b. MTH 4100 (Linear Algebra and Matrix Methods). Baruch College, CUNY. Spring term, one section.
- 2020a. MTH 4005 (Problem-solving seminar, Putnam competition preparation). Baruch College, CUNY. Fall term, one section
- 2020b. MTH 4100 (Linear Algebra and Matrix Methods). Baruch College, CUNY. Spring term, one section.
- 2019a. MTH 4005 (Problem-solving seminar, Putnam competition preparation). Baruch College, CUNY. Fall term, one section
- 2019b. MTH 4100 (Linear Algebra and Matrix Methods). Baruch College, CUNY. Spring term, one section.
- 2019b. MTH 2610 (Calculus I). Baruch College, CUNY. Spring term, one section.
- 2018a. MTH 4430 (Mathematics of Inferential Statistics). Baruch College, CUNY. Fall term, one section.
- 2018b. MTH 2003 (Precalculus). Baruch College, CUNY. Fall term, one section.
- 2018c. “Dividiendo votos, pasteles y mapas: matemáticas y algoritmos”. *Dividing votes, cakes and maps: mathematics and algorithms*. One-week summer course for high-school and undergraduate students, part of the project “clubes de ciencias”. Ensenada, Mexico.
- 2018d. Math 3150 (Introduction to Real Analysis). Northeastern University. Spring term, one section.
- 2018e. Math 2331 (Linear Algebra). Northeastern University. Spring term, one section.
- 2017a. Math 3150 (Introduction to Real Analysis). Northeastern University. Fall term, one section.
- 2017b. Math 3150 (Introduction to Real Analysis) at Northeastern University. Spring term, one section.
- 2016a. Math 2321 (Calculus 3 for Science and Engineering) at Northeastern University. Fall term, two sections.
- 2016a. Teaching Methods in Mathematics Workshop (“*Métodos de enseñanza de matemáticas para alumnos del Siglo XXI*”), June 29th to July 1st, 24 hours, ITESM Estado de México, Mexico.
- 2016b. Math 2331 (Linear Algebra) at Northeastern University. Spring term, two sections.
- 2015a. Math 1342 (Calculus 2 for Science and Engineering) at Northeastern University. Fall term, one section.
- 2015b. Math 216 (Introduction to Differential Equations) at The University of Michigan. Winter term, two sections.
- 2014a. Math 216 (Introduction to Differential Equations) at The University of Michigan. Winter term, two sections.
- 2014b. Math 116 (Calculus 2) at The University of Michigan. Fall term, two sections.
2013. Math 115 (Calculus 1) at The University of Michigan. Fall term, two sections.
2011. Combinatorics for international olympiads at “Workshop for olympiad trainers”. 12 hours. San Luis Potosí, Mexico.
2009. Geometry problem-solving workshop at “Workshop for olympiad trainers”. 8 hours. Guanajuato, Mexico.
- 2008-2010. Teaching Assistant A at UNAM. Courses included: Analytic Geometry I, Analytic Geometry II, Complex Variable I, Convex Sets
Mexico City, Mexico.
- 2007-2010. Training the Mexican teams for international mathematical olympiads.
2007. Inequalities problem-solving workshop at “Workshop for olympiad trainers”. 8 hours. Guanajuato, Mexico.

Undergraduate Students Research Mentoring

Students with (*) are coauthors in research papers.

- 2021 Ilani Axelrod-Freed (*,MIT), João Pedro Carvalho (*,Haverford), Michael N. Manta (*, Caltech), Yuki Takahashi (*,Grinnell)
- 2020 Phillip Chen (Baruch), Travis Dillon (*, Lawrence University) John A. Messina (*, NYU), Kukai Nakahata (Baruch), Shawn Roy (Baruch), Yaqian Tang (*, Wesleyan)
- 2019 Sherry Sarkar (*, Georgia Tech), Alexander Xue (*, Cornell)
- 2017 Christina Nguyen (NEU)
- 2016 Adam Tobey (NEU).

Other activities / Broader impacts

- 2020a Co-organizer of Baruch College Combinatorics REU. Co-organizers: Adam Sheffer, Matthew Junge, Guy Moshkovitz.
- 2020b Coach for the Panama Mathematical Olympiad international teams. Panama City, Panama.
- 2019a Training Putnam team for Baruch College. Supervising Putnam mathematical competition at Baruch College.
- 2019b Co-organizer of Baruch College Combinatorics REU. Co-organizers: Adam Sheffer, Frank de Zeeuw.
- 2018a Training Putnam team for Baruch College. Supervising Putnam mathematical competition at Baruch College.
- 2018b Organizer of special session titled “Algebraic, geometric, and topological methods in combinatorics” for AMS Spring Eastern Sectional Meeting (Meeting #1139). Co-organizer: Florian Frick
- 2018c Training Putnam / Organizing reading Seminar of “Proofs from the book” at Northeastern University
- 2017a Training Putnam team for Northeastern University, and supervising Putnam mathematical competition at Northeastern University.
- 2017b Organizer of “Pick my brain” seminar at Northeastern University.
Co-organizers: Ivan Martino, Robin Walters
<http://mathserver.neu.edu/pickmybrain/>
- 2017c Assistant at MRC (Mathematical Research Communities) Workshop “Beyond Planarity: Crossing numbers of Graphs”. Snowbird, Utah, USA.
- 2016 Training Putnam team for Northeastern University, and supervising Putnam mathematical competition at Northeastern University.
- 2007-2011 Organizing committee of the Mexican Mathematical Olympiad.
- 2010 Leader of Mexico. XII Central American Mathematical Olympiad.
Mayagüez, Puerto Rico.
- 2009a Research assistant of L. Montejano. Funded by CONACyT.
- 2009b Deputy leader of Mexico. L International Mathematical Olympiad.
Bremen, Germany.
- 2008 Deputy leader of Mexico. XXIII Iberoamerican Mathematical Olympiad.
Salvador do Bahia, Brazil.
- 2007 Deputy leader of Mexico. IX Central American Mathematical Olympiad.
Mérida, Venezuela

Talks in conferences/seminars

- 2021a. 1 Quantitative Helly Theorems. *SUNY Binghamton combinatorics seminar*. (online)
- 2021b. 2 Quantitative Helly Theorems. *Budapest Big Combinatorics and Geometry seminar*. (online)
- 2021c. 3 The topological Tverberg theorem beyond prime powers. *Copenhagen-Jerusalem Combinatorics Seminar*. (online)
- 2021d. 4 Quantitative Helly theorems. *University of Massachusetts Lowell mathematics colloquium*. (online)
- 2021e. 5 Quantitative Helly theorems. *Bard College mathematics seminar*. (online)
- 2021f. 6 Teoremas de Helly cuantitativos. *Seminario preguntón*. Usually in Juriquilla, Querétaro (online)
- 2021g. 7 The topological Tverberg theorem beyond prime powers. *IST Austria seminar* (online)
- 2020a. 8 A glimpse of discrete geometry. *Online Undergraduate Resource Fair for the Advancement in Academia of Marginalized Mathematicians*. (online)

- 2020b. 9 The topological Tverberg theorem beyond prime powers. *Combinatorics and Geometry Days III conference*. (online)
- 2020c. 10 Variations of Convex Equipartitions of Measures. *CoSP Seminar* (online, replaced a workshop to be held in Prague)
- 2020d. 11 Teoría de Tverberg sin potencias de primos. *CCM Coloquium*. Morelia, Mexico (online).
- 2020e. 12 The topological Tverberg theorem beyond prime powers. *Combinatorial and Additive Number Theory Conference* (online).
- 2019a. 13 Barvinok’s method to approximate the permanent II. *New York Number Theory Seminar*. Graduate Center CUNY, NY, USA.
- 2019b. 14 Matroids, Helly’s theorem, and Ellipsoids. *AMS Fall Southeastern sectional meeting*. University of Florida, FL, USA.
- 2019c. 15 Barvinok’s method to approximate the permanent I. *New York Number Theory Seminar*. Graduate Center CUNY, NY, USA.
- 2019d. 16 Probabilistic Methods for the colorful Tverberg theorem. *AMS sectional meeting 1151, special session on oriented matroids and related topics*. Binghamton University, NY, USA.
- 2019e. 17 Exact Quantitative Helly Theorems. *CMO-BIRS Workshop [19w5028] Helly and Tverberg theorems..* Casa Matemática Oaxaca, Oaxaca, México.
- 2019f. 18 Exact Quantitative Helly Theorems. *Rutgers Combinatorics Seminar*. Rutgers University. New Brunswick, NJ, USA.
- 2019g. 19 Prescribing symmetries of centrally symmetric polytopes. *AMS Southeastern sectional meeting*. University of Auburn. Auburn, AL, USA.
- 2019h. 20 Tverberg’s theorem and weak epsilon-nets. *NYC Geometry Seminar*. Courant Institute, NYU. New York, NY, USA.
- 2018a. 21 Random partitions and the Colorful Tverberg theorem. *ACO Seminar*. Carnegie Mellon University. Pittsburgh, PA, USA.
- 2018b. 22 Extending robust versions of Tverberg’s theorem. *Special session on Polytopes and Discrete Geometry, AMS Northeastern Sectional Meeting*. Northeastern University. Boston, MA, USA.
- 2018c. 23 Different approaches to the colorful Tverberg theorem. *Pick My Brain Seminar*. Northeastern University. Boston, MA, USA.
- 2018d. 24 Tverberg-type results, weak epsilon-nets and the probabilistic method. *Worldwide Center of Math Lecture Series Seminar*. Cambridge, MA, USA.
- 2018e. 25 Packing densities, kissing numbers and piercing numbers. *Northeastern University Math Club*. Boston, MA, USA.
- 2018f. 26 Tverberg’s theorem: a gem in discrete geometry. *Latinx in the Mathematical Sciences Conference*. Institute of Pure and Applied Mathematics, UCLA. Los Angeles, CA, USA.
- 2017a. 27 Problemas de particiones justas (Fair partition problems). *Coloquium of Centro de Ciencias Matemáticas*. Morelia, Mexico.
- 2017b. 28 Linear versions of Tverberg’s theorem: progress and problems. *Introductory Workshop: Geometric and Topological Combinatorics* MSRI program 309. Berkeley, CA, USA.
- 2017c. 29 Symmetries in mass partition problems. *BIRS-CMO Workshop 17w5015: Symmetries and Discrete Structures in Geometry*. Oaxaca, Oaxaca, Mexico.
- 2017d. 30 Fair division problems and high-dimensional necklaces. *Pacific Rim Mathematical Association 3rd Congress*. Oaxaca, Oaxaca, Mexico.
- 2017e. 31 Tensors, colors, convex hulls. *Discrete Geometry and Convexity, Bárány 70*. Rényi Institute, Budapest, Hungary.
- 2017f. 32 Thieves and High-dimensional necklaces. *University of Washington Combinatorics Seminar*. Seattle, USA.
- 2017g. 33 Robust Tverberg results via the probabilistic method. *Ninth Discrete Geometry and Algebraic Combinatorics Conference UTRGV*. South Padre Island, Texas, USA.
- 2016a. 34 A toolbox for topologists. *ICERM workshop: Topology and Geometry in a Discrete Setting*. Institute for Computational and Experimental Research in Mathematics (ICERM), Providence, RI, USA.
- 2016b. 35 An application of the probabilistic method to Tverberg’s theorem. *CMO-BIRS workshop: Transversal, Helly and Tverberg type Theorems in Geometry, Combinatorics and Topology III*. CMO-BIRS Oaxaca, Mexico.
- 2016c. 36 A probabilistic approach to Tverberg-type results. *2016 Fall Eastern Sectional Meeting*. Bowdoin College, Brunswick, ME, USA.
- 2016d. 37 Quantitative Helly-type theorems. *2016 SIAM Discrete Mathematics conference*. Atlanta, USA
- 2016e. 38 Quantitative and Colorful combinatorial geometry. *8-th Algebraic combinatorics and discrete geometry*

- conference UTRGV. South Padre Island, Texas, USA

- 2016g. 40 A glimpse of combinatorial geometry. *Northeastern University Mathematics Postdoc seminar*. Boston, USA.
- 2015a. 41 Measure partitions using hyperplanes with fixed directions. *Northeastern University GASC seminar*. Boston, USA.
- 2015b. 42 Quantitative Helly-type theorems in combinatorial geometry. *University of Massachusetts Colloquium*. Boston, USA.
- 2015c. 43 Fixed directions in mass partition problems. *University of Michigan combinatorics seminar*. Ann Arbor, USA.
- 2015d. 44 Quantitative Helly-type theorems. *Lászlo Fejes Tóth centennial conference*. Budapest, Hungary.
- 2015e. 45 Variations of positive-fraction intersection results in combinatorial geometry. *Freie Universität Topological Combinatorics seminar*. Berlin, Germany.
- 2014a. 46 Aproximando números de homomorfismos (*Approximating homomorphism numbers*, in spanish). II Reunión de Matemáticos Mexicanos en el Mundo (*II Meeting of Mexican Mathematicians in the World*). Guanajuato, Mexico.
- 2014b. 47 Variations of the ham sandwich theorem. *UC Davis Algebra & Discrete Math Seminar*. Davis CA, USA.
- 2014c. 48 Mass Partitions with Hyperplanes of Fixed Directions. *Oberwolfach Workshop 1436*. Oberwolfach, Germany.
- 2014d. 49 Variations of Tverberg's theorem. *MIT Combinatorics Seminar* Boston, USA.
- 2014e. 50 Teoremas coloreados y productos tensoriales (Colorful theorems and tensor products) *CIM seminar*. Querétaro, Mexico
- 2014f. 51 Tverberg's theorem and the Birkhoff Polytope. *Discrete Mathematics Seminar, Freie Universität Berlin*. Berlin, Germany
- 2014g. 52 Splitting points and hyperplanes. *SIAM Conference on Discrete Mathematics, Discrete Geometry Session* Minneapolis, USA
- 2013a. 53 Tverberg's theorem: different approaches to the colorful version. *University of Michigan Combinatorics seminar*. Ann Arbor, USA.
- 2013b. 54 Equal Coefficients and Tolerance in Coloured Tverberg Partitions. *29th ACM Symposium on Computational Geometry*. Rio de Janeiro, Brazil.
- 2013c. 55 Particiones balanceadas de medidas en \mathbb{R}^d (Balanced Partitions of Measures in \mathbb{R}^d). *National Congress of the Royal Spanish Mathematical Society (RSME)*. Santiago de Compostela, Spain.
- 2013d. 56 Variaciones del teorema de Tverberg (Variations of Tverberg's Theorem). *Seminario de matemáticas discretas* Univeristy of Cantabria. Santander, Spain.
- 2013e. 57 Partitions of measures and combinatorial geometry. Warwick University, UK.
- 2012a. 58 Some generalisations of Radon's theorem *LSE lunchtime seminar*. London School of Economics.
- 2012b. 59 An extension of a theorem by Yao and Yao. *European workshop on computational geometry (EuroCG)*. Assisi, Italy.
- 2012c. 60 Variations of Tverberg's theorem. *Geometry seminar*. Rényi Institute. Budapest, Hungary.
- 2012d. 61 Equal coefficients in coloured Tverberg partitions. *Recent Advances in Transversal and Helly-type Theorems in Geometry, Combinatorics and Topology*. Banff, Canada.
- 2011a. 62 Balanced equipartitions of measures in \mathbb{R}^d . *Discrete mathematics seminar*. University College London.
- 2011b. 63 On the tolerated Tverberg theorem. *Discrete geometry workshop (ID 1136)*. Oberwolfach, Germany.
- 2011c. 64 Balanced partitions of measures in \mathbb{R}^d . *Convexity, Topology, Combinatorics, and Beyond: A workshop in honor of Montejano's 60th birthday*. Puerto Vallarta, Mexico.
- 2011d. 65 Round table for the 25 years of the Mexican Mathematical Olympiad. *National congress of the Mexican Mathematical Society*. San Luis Potosí, Mexico.
- 2009a. 66 Piercing numbers for balanced families. *Transversals and Helly-type theorems in Geometry, Combina-*

torics and Topology.
Banff, Canada.
